All,

It has been brought to my attention that Congress.gov does not have the text of each bill on its website yet. As such, please find .pdfs attached. Thanks and sorry for any confusion.

Best,

Subject: PFAS Legislation before House Energy and Commerce (Follow up from AA Meeting)

Good Morning all,

As a follow up to this morning's AA meeting and yesterday's PFAS hearing, please find below a list of pieces of legislation that the House Energy and Commerce is considering and we are expecting to testify on at some point in June. As discussed this morning, please let OCIR know if your office has any thoughts regarding pieces of legislation that are more/less implementable or might be helpful or hurtful to your offices.

At this time we are not looking for in-depth Technical Assistance on any of these bills, just your office's perspective on the goals of the bill that your office would implement.

Please let me know if you have any questions. Thank you,

Christian Rodrick
